

Pharmaceutical GMP Audits and Self-Inspections

GMP PQS Lead Auditor (GMP Pharmaceutical Quality Systems)
Training Course 1773

Feedback from previous course delegates

“Exquisite! An excellent and solid knowledge!”

Natasa Guderic, Octapharma AG

“Fantastic course, good pace and mix of presentation and group sessions.”

Clare Hargreaves, Sequiris

“Very good course materials and experienced and professional instructors. It is a great training course. Thank you very much. Very professional courses with great help.”

Qin Yu Wuhang Consulting Co

“I have greatly enjoyed the course, although the days are long the structure allows you to stay fresh with the split between group activities, role play and slides. I look forward to furthering my education in this subject and sharing the knowledge I have learned and improving processes.”

Sarah Riordan, BTG

“Thought the trainers were fantastic. It's nice to see some people who are genuinely interested in increasing my capability. Hand on heart I learnt a lot more than I imagined I would over the last few days.”

Daniel Sicklen, P&G

“Truly excellent course. I was already a lead auditor for internal and external audits, but the course has provided me massive opportunities for improvements in my tools and techniques, and especially writing audit observations, which I will take back and improve the audit process. Thank you.”

Jennifer Hynes, Benchmark Vaccines Ltd
