

The family pharmacist

A new service in Belgian pharmacies

Pharm. Manon Buyl 07-11-2019

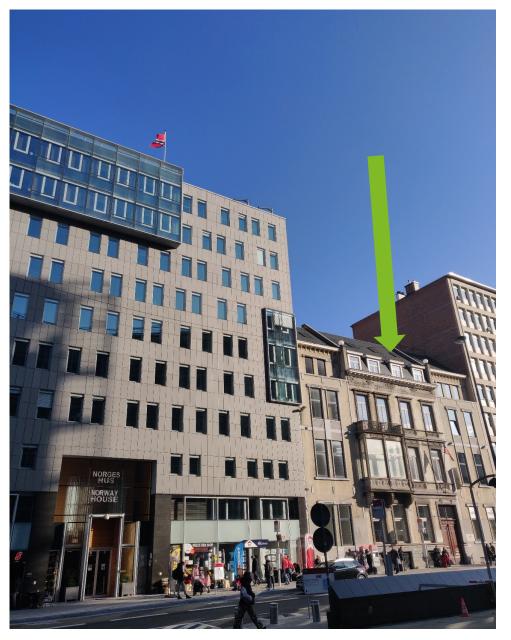

Belgium in numbers

11.000.000 citizens

3 Official languages

6 governments

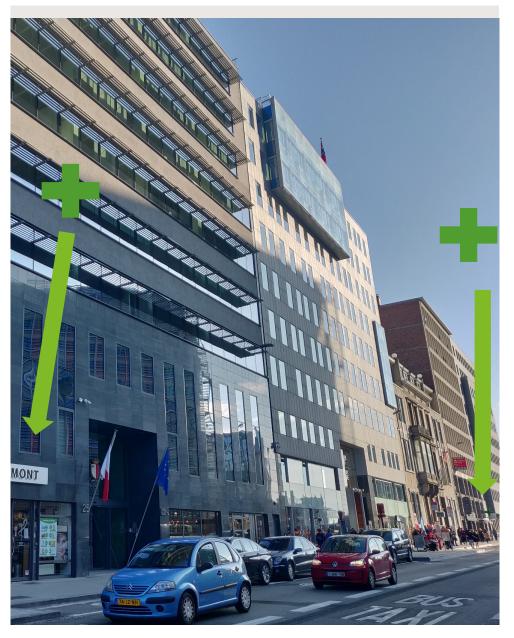

8 health ministers

APB - Belgian Association for Pharmacies

APB represents more than 95% of the independent pharmacies and more than 85% of the pharmacies open to public.

Pharmacy landscape

4815 community pharmacies in Belgium

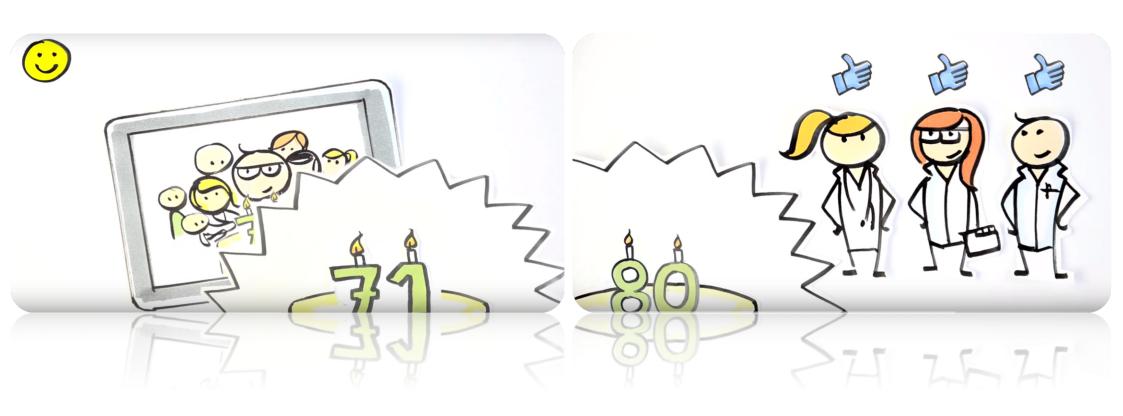

16.000 employees

500.000 patients visit a pharmacy every day

Family Pharmacist

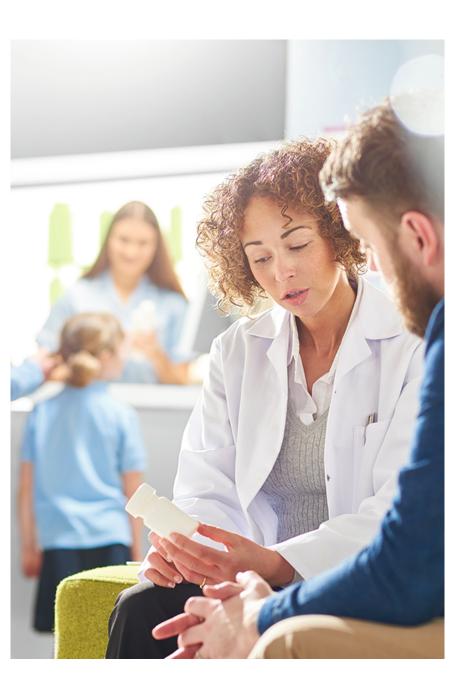

Definition

"Your family pharmacist is the community pharmacist you choose to accompany and follow your medication use. He or she manages your pharmaceutical record and offers pharmaceutical care throughout your personal care path."

Target Population

- Chronic patients
- Polymedicated patients
- Patients in a diabetes program

Your family pharmacist is the point of contact for information about your drug therapy

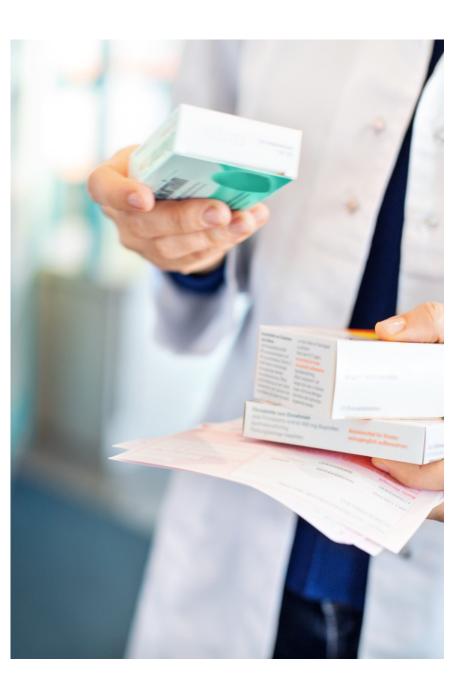

Remuneration

- € 30 per patient per year
- covered by health insurance
- without out of pocket contribution
