

APPENDIX 1a

Programme for 1-day Pharmaceutical Legislation & Guidance Update Course

This day will provide NFS members who are Qualified Persons (QPs), other quality professionals or in regulatory affairs roles with an update on recently implemented and current draft legislation and guidance that will impact the manufacturing and distribution of medicinal products. The course will cover changes from the following sources:

- The European Union
- The United Kingdom
- The United States of America
- International Organisations; e.g. ICH, PIC/S, ICMRA, etc.

The detailed programme for the course will be agreed with NFS in early 2024 to ensure that the latest developments are included.

The course will be delivered from 09:00 to 16:00 on Friday 24 May 2024.
